My JAZZ PRACTICE LOG

(week of:) **Name: _____** **(please return)**
tel#_____

List of all I would practice if there were time* Dates→														

*__This list__ (what you hope and intend to practice) can include whatever YOU want to list. **Dates** go into the top row of small squares. **Checkmarks** or x go in the grid squares if you did the material on a certain date. It should become evident which material you are accomplishing or skipping. Balance your practice. A countdown timer may help you remember to "practice something else now."

You could use this form, or another one like it, for non-jazz things. Here are some suggestions of jazz materials: Tunes by ear, tunes in different keys, certain tunes (titles), your tunes list lengthened, jazz embellishments, memorization, jazz ensemble parts, music theory, technical work. High and low chops, speed/technique, scales/arpeggios, strange scales, singing, playalongs, playalong with a friend, focused listening, playback with a friend, vibrato, music copying/notation, sight-reading, special effects, endurance, power without panic, soft control, record yourself, ear training and dictation, transcribing, software to change keys and tempos of playalongs…

Additional copies of this form are free at tom-ervin.com
